Through Sunday 1/4/16 Describe event I came in to speak to the officer Razer's boss and she was listening as I spoke to officer Frye. I told him how I felt Razer was being bias after a wreck. My brother was in @ Kroger / Monticello. FRYE told me the report said the other vehical was at fault. When I read the report it didn't say that so I returned to the office to speak with him again. He refused to talk to me. I had others on facebook send me screenshot of Razer's posts talking about me while I was still in the police station. Razer continued to post harassing comments on facebook until Sunday 1/3/16. Razer Razer referred to me a "racist", she said she has a "bad temper", called me a "snatchy rich bitch" "twiggly", said she will "retrain from having the urge to punch me in the mouth", called me "twiggly ass bitch" and even brought up the murder in the wreck / my brother by posting "when a bitch refers to

She took a work issue and made it personal and I believe she would continue to harass my family & myself. As a cop I am worried about possible retaliation from officer Razer. I also know she had an issue or personal bias against my family or myself before working on my brother's accident. I also believe Frye should of handled my visit more professionally. He was very rude and seemed to protect Razer's actions the whole time instead of assessing the situation from an unbiased point of view.

I was coming East on Chickasawba St and a Police car got behind me, Really not sure where he came from. But he was following really close, so I assume he was running my plates. So by this time in turning north on 6th Street. I stopped at the 3 way stop. The car going South went first and The car to the left of me turned East, so then I turned. There were 2 other cars that went before the officer but he still managed to get back on my bumper as I turn in the 2nd driveway of Sears. The one closer to dominos. He was so close if I would have tapped my brakes he would have ran into the back of me. @#\$%&*

It was an older Police car with a white man in it

I would very much like to talk to him.

I think he was either try to scare or intimidate me and I want to know why?

Describe event

When I went to my wife job with our daughter, I saw Officer Marcus Parr sitting at the table with her. I had asked Officer Parr yesterday if he was seeing my wife and he said no, but then went to my job to speak with another employee + manager about the matter and show her text messages from my wife. I have asked Officer Parr to stay away from my wife and he laughed, even after I said I was going to go to the chief he said so go.

On March 25, I ~~was~~ was standing in the door way of my home when Officer Parr drove by slowly and made a hand gesture at me. Shortly after that I came by the station but I encountered Officer Parr in the lobby who said the Chief wasn't working.

On the morning of March 26, Office Parr drove by my job at a slow rate of speed as if he was mocking me. Me and my wife Sherrie McClellan are not legally seperated and both reside at 300 E. Sawyer. In a text message commented if my wife wanted him to he would speak to my Punk ASS. I don't know if he is trying to intimidate me or what.

Aeroplex Ball field parking lot

Describe event

my family & I were at the ballfields walking to our cars. A police car came through the lot, floored it to about 45 mph almost hitting my 7 yr old son, 12 yr daughter & my 78 year old father. If I had not grabbed my son when I did, he could very well have been hit. I would have videoed it if I had thought as quickly as he was driving. The cop continued to floor it at every place he should have slowed to be more cautious, we heard him floor it past the hospital from the ball fields. I understand cops needing to hurry up to help or w/ backup, and have respect for our officers. However, some can be STUPID!! Common sense is lacking with some, one being the cop who flew through the parking lot @ the ball fields. You just don't speed (fly in this instance) through a parking lot filled w/ citizens, most being RTAS!!!

- I would love nothing more than to have a face to face talk

My son was pulled over for his break light being out. I'm trying to understand why this simple traffic stop resulted in two officers searching his vehicle for drugs. Before the one officer could walk completely up to the vehicle the first thing out of his mouth was (I smell marijuana). The other officer standing a good distance from the vehicle stated (I can smell it all the way over to where ~~he~~ was standing). Needless to say they didn't find not one thing pertaining to drugs. When all your officers have to do is say I smell marijuana and that gives ~~to~~ ~~search~~ them the right to search your property, you can't help but to wonder who is that slick tactic set up for. My son has been followed and stopped numerous of times. I'm fed up with the harassment. All the times he has been stopped I do not once remember him getting a ticket. I educated him ~~on~~ that is how the system is set up for certain people. They stop you on a simple violation of your tail lights or fog light being out and what you certain people are being stop for is to see if they can catch you with drugs in your vehicle. I would very much like to talk to you about this matter and I would very much like a copy of all the traffic stops that you and your certain officers have on my son Taylor Coleman.
